

Our Father's World

Our Father's World (OFW) is a mission organisation seeking to inspire and equip the Church to love and care for God's creation. We are board-governed and staff-led, with a core team comprising a paid Executive Director and a team of committed volunteers. We are also guided by an Advisory Council, with members of local and international Christian leaders across diverse sectors. OFW is a non-profit organisation registered in Singapore and focused on Southeast Asia.

Our ministry approach is three-pronged:

1. **Inspiring disciples** to love Creator and creation through biblically-grounded education and experiences;
2. **Equipping churches** to make disciples that care for creation through dedicated resources and consultancy; and
3. **Empowering changemakers** locally and regionally through training and networking.

Our Flagships

We do this through our two flagships:

1. Creation Care Conference

The Creation Care Conference (CCC) aims to equip Christians with theological and practical knowledge on creation care, and connect like-minded believers to effect change together. Held annually, CCC25 saw over 500 participants, speakers and volunteers come together for two days, hailing from 10 countries and representing over 130 churches.

2. RENEW

RENEW is a guided discipleship journey for churches in Singapore to integrate creation care into individual and church life. It aims to renew their relationship with creation for right stewardship.

The heart of the journey is the RENEW Roadmap, with concrete milestones and marks for churches to conduct self-assessments of their progress and set goals.

Participating churches will also be supported with the:

- RENEW Starter Kit, a collection of tools and templates to get started.
- RENEW Playbooks, detailed ministry-specific guides to effecting change, and case studies of various churches to inspire action.
- RENEW Programmes, a range of initiatives for churches to participate in that deal with specific environmental concerns.
- RENEW Resources, a curated repository of resources to further support churches, such as books, devotionals, and discounts on sustainability services.

Our Activities

Besides our flagships, we also raise awareness on creation care through other key activities:

- Talks and workshops on the biblical basis for creation care in discipleship and mission
- Experiential activities such as contemplative cleanups, ecosystem restoration, and monthly reflective guided walks
- Educational content and calls to prayer via digital platforms like social media
