Elijah7000 (E7K) – Strengthening Families Through Activating and Mobilizing Fathers

E7K is a Christian fathering movement which has responded to the call in Malachi 4:5-6 to turn the hearts of fathers to their children and the hearts of children to their fathers. Strategically, E7K will play the catalytic role to champion, drive, facilitate, own and steward the vision of the father's movement. E7K will influence, position people and resources, and put in place gatekeepers in strategic positions to drive the Kingdom movement forward.

1. The 3 main thrusts of E7K are:
 - a. Create awareness of the impact of fatherlessness on the lives of individuals, the community and subsequently the nation.
 - b. Awaken fathers in all walks of life to commit and step into their roles and responsibilities as heads of their households.
 - c. Facilitate those who have committed themselves on the journey of becoming good godly fathers, the means, and platforms in which to learn and be equipped, get support to grow and thrive.
2. The 5 key emphasis of E7K are:
 - a. Run prayer altars for fathers to come as sons to encounter with Father God.
 - b. Promote good practices to strengthen marriage and family.
 - c. Connect and mentor different generation of fathers.
 - d. Build and grow father communities and groups.
 - e. Facilitate training and equipping platforms.
3. E7K has been helping more than 15 nations in catalysing their national fathering movements on both the secular and Christian fronts. The vision is for the fathering movement to permeate the whole of Asia, to address an endemic fatherlessness that destroys children and communities. E7K will share its experience as a movement, support vision casting initiatives and/or facilitate the supply of relevant training support (i.e., train the trainers) needed by the nations.

Key Highlights of Elijah7000 in 2025:

1. Journey of Sonship

Sonship Pathfinder is a one-day guided experience to help us slow down, listen, and recognize the fatherhood of God at work in and around us. Through story, reflection, and conversation, we explore the HUIO Compass — a simple way of seeing the dimensions of the inner sonship journey of formation and restoration to wholeness, and the outward journey of fruitfulness and Kingdom transformation that the Father empowers and leads us into.

Uncover the 7 Stages of the Sonship Journey into the Father's Heart, from brokenness and addiction to hearing His voice, walking in sonship and maturity, receiving His heart, and reflecting His Fatherhood to others.

2. 456 Prayer Altar

A group of E7K fathers gather at 4.56am every Saturday at Father's House to worship at the altar and encounter the love of our Heavenly Father, seeking to hear what is on our Father's heart for us to move out to do His business. Since May 2025, we started to reach out to connect and encourage other father prayer altars or prayer groups, e.g., ACS father prayer groups, Cornerstone father group, Salaam Fellowship, Faith father prayer group, and Bethesda Bedok-Tampines father prayer group.

3. Fathering Movement for Nations

To date, E7K has spread the father's movement to 17 nations. There are plans to add a few more nations in 2026. There are fathering/family conferences as well as fathering equipping programmes that are lined up for Uganda, Japan, Israel, India, China, Hong Kong, Mongolia, etc. In 2025, we made 16 trips to Thailand, Indonesia, China, India, Mongolia, Vietnam, Nepal, Uganda and Tahiti for vision casting, strategic consultations (including starting & sustaining a kingdom movement) and father equipping workshops.

4. Fathering Movement in Schools

Building up momentum to catalyze father groups in schools, starting with Dads@Bedok, by collaborating with school principals and church pastors to bring fathers together for prayer, worship, fellowship and journeying together as fathers. Another new group, Dads@YioChuKang, is also birthed this year. Going forward, we will partner with PPU (Praying Parents Unite), BB (Boys Brigade), etc. to activate and mobilize more fathers to join the movement and journey together.

5. Fathering Movement in Migrant Workers Dorms

Partnering with HealthServe and The Salvation Army, E7K introduced the ICAN fathering programme into two migrant workers dormitories for the pre-believing fathers, the construction workers from India, Bangladesh, etc. We received very positive feedback on how the programme helped to improve the relationships with their spouses and children.

6. Fathering Movement in Prisons

Our E7K fathers volunteer with Centre for Fathering to conduct a Solution Focused Coaching programme for Incarcerated Fathers since 2024. The programme has been very well received and recognized by Singapore Prisons, and transformation of the lives of inmates and their families have been reported. In 2026, we will ramp up from one run per year to nine runs per year by helping to recruit and coach more E7K volunteer trainers.

7. Father Group Leaders Gathering

In place of our annual Fan the Fire gathering of E7K fathers, this year we focused on fanning the fire of the father group leaders. We intentionally connect, rally, inspire, and encourage our leaders to come for a time to share and learn from one another, and be fired up to help spread the movement, and take it to the next level. We want to see more father groups being formed and strengthened in the coming year and beyond.
